AIR & FUEL

Big Air Kits • Jet Kits • Hi-Flow Air Cleaners/Filters • Manifolds • Carburetors

Horsepower and torque, quicker acceleration and more pulling power are what products in this section will provide. Baron offers only the products we've tested and proven both on the road and in our state-of-the-art dyno room to meet or exceed our high standards. As well, they maintain reliability and are easy to install and tune.

BIG AIR KITS

Baron's Big Air Kit (BAK) is the hottest accessory on the market for adding performance and style to today's big cruisers. A BAK will add noticeable horsepower and torque – instantly! You'll hear the roar and feel the power as your bike accelerates faster than ever before. The beautifully chromed covers are stylized to enhance the look of your V-twin engine. Each BAK comes complete with your choice of cover style, K&N high-flow air filter, Raincoat and all necessary mounting hardware, including our performance needle and jet kits, when applicable. Installation is a breeze with our easy-to-follow instructions and tuning tips, perfected through road testing and detailed research in our state-of-the-art dynamometer room. Any of the available chrome filter covers can be purchased separately for those who want to alter the look of their existing Baron BAK.

STEALTH BIG AIR KIT – ROYAL STAR

This kit will unleash the animal buried deep within your Royal Star! You'll find your bike accelerating quicker and pulling harder than you ever thought it could. Kits include high flow K&N Filter Chargers and all necessary jetting components to maximize performance, including our special adjustable needles, Mikuni main and pilot jets and improved float bowl hardware. Easy to follow instructions and tuning tips are included.

MAKE - MODEL	YEAR	PART NO.	RETAIL
YAMAHA			
Royal Star XVZ1300RS	96-01	BA-2000-00	\$229.95

STEALTH BIG AIR KIT – V-STAR 650

Bring out the performance you've only dreamed of! Increases horsepower and torque. Our virtually invisible BAK improves both low-end and mid-range acceleration, while adding top-end as well. Each BAK includes our adjustable needles, genuine Mikuni main and pilot jets, individual high-flow K&N FilterChargers and improved float bowl hardware. Easy to follow instructions and tuning tips are included.

YAMAHA			
V-Star 650 XVS650CU, XVS650CL	98-05	BA-2010-00	\$159.95

STEALTH BIG AIR KIT – WARRIOR

Release the "War" in your Warrior with our Stealth Big Air Kit! Adds noticeable horsepower and torque, quickens acceleration and gives your bike a roar when you twist the throttle. Also includes our unique relocation bracket which repositions your ignition coils and fuel injection sensors to a hidden location, cleaning up the clutter at the front of your frame. Kit comes complete with K&N high-flow FilterChargers, crankcase vent filter and air injection system block-off plates. Requires a fuel injection controller like the Kuryakyn Wild Things or Dynojet Power Commander units for optimum performance and tuning.

YAMAHA			
Warrior XV1700WR	02-05	BA-2050-00	\$189.95

FORCE LOAD VELOCITY STACK KITS

Increase horsepower, torque and acceleration with our Force Load Velocity Stack, featuring our re-engineered intake horn with its anti-turbulence outer lip design and Force Load intake tunnel. These features provide improved flow dynamics that smooth out turbulence while allowing a higher volume of air to enter the carburetor, giving a ram air effect for increased horsepower and torque. As tested on our dyno, this combination has worked to add an additional 2+ horsepower and three foot-pounds of torque over our original design. Kit includes your choice of mounting arm, available in several decorative styles to suit your bike's theme. Installation will require a needle/jet kit, sold separately.

AIR INJECTION REMOVAL KITS

Remove the clutter from your engine while cutting down on annoying deceleration backfires with one of our air-injection system removal kits. Enhances motorcycle appearance by removing unsightly AIS plumbing/hoses from engine. Kits do not alter performance and do not require adjustments to EFI or carburetor models. Correct plugs or block-off plates are included for your specific model. Warning! Removal of this system may not be legal in your state.

KURYAKYN HYPERCHARGER KIT

Since their introduction in 1992, The Hypercharger™ has been widely recognized as one of the most cost effective performance modifications available. When the demand arose for adaptation to the Metric Cruisers we expected similar increases, but never expected to see the gain common on these engines. Aside from the desirable gains in performance, the Hypercharger is one of the most striking enhancements you can make to your bike. These kits contain an all chrome Hypercharger, mounting kit, and carburetor jetting necessary for a complete, sanitary installation. For optimum performance and drivability on Fuel Injected motorcycles, Kuryakyn strongly recommends the use of the Wild Things Fuel Injection Controller. Kuryakyn recommends that Hypercharger installation and jetting on the Yamaha V-Star 650 be performed by a Yamaha Dealer or other qualified technician.

KURYAKYN PRO SERIES HYPERCHARGER KIT

The Pro Series Hypercharger was designed for massive, air-hungry V-Twin mills that like lots of RPMs. If your motor needs air, here's the place to start. The inlet is cavernous. The filter area has been increased by a full 1/2" over the standard Hypercharger. Internal shapes have been tweaked to allow increased flow and velocity. The "Pro" has a look all its own. All edges are radiused for a more streamlined appearance, and a completely new cover with speed lines completes this picture of performance. These kits contain an all chrome Hypercharger, mounting kit, and carburetor jetting necessary for a complete, sanitary installation. For optimum performance and drivability on Fuel Injected motorcycles, Kuryakyn strongly recommends the use of the Wild Things Fuel Injection Controller.

POWER COMMANDER III

The Power Commander is a fuel injection adjustment unit (along with ignition timing on some models) that plugs "inline" with a bike's stock ECU. The PC uses original equipment style connectors so that no splicing or cutting of the harness is required. Most installations take less than 15 minutes, some as little as 5 minutes. Changes are made to the bike's fuel and ignition curves via the PC's onboard microprocessor. Using this technology we are able to offer a large area of adjustment without making any permanent changes to a bike's ECU. The Power Commander can be ordered preprogrammed with a your choice of several settings, based on the modifications to your bike. The unit also comes complete with software and cable link that allows you to change between different maps or make adjustments to a map file. Call for other applications

KURYAKYN WILD THINGS FUEL INJECTION CONTROLLER

by Dobeck Performance

Finally, an easy and affordable way to adjust your fuel injection system to accommodate modifications to your motorcycle's exhaust system, air cleaner, or engine components. The Wild Things Fuel Injection Controller is load-based. Aside from reading throttle position and RPM, the Wild Things Fuel Injection Controller also takes into account the load the engine is under. Even though you may encounter the same throttle positions at the same RPMs in different riding situations, the engine's fuel requirement will not be the same because the engine is not under the same load. The Wild Things Fuel Injection Controller allows you to tune the fuel injection much the same way you jet a carburetor. Our Wild Things Fuel Injection Controllers offer plug and play installation. There is no need to compromise the integrity of the stock wire harness.

ROYAL PURPLE MAX-CYCLE OIL

Max-Cycle® is specifically formulated to significantly improve motorcycle engine (and transmission) performance. Max-Cycle® oil is recommended for use in both air-cooled and liquid-cooled 4-cycle engines and is compatible with wet-clutch transmissions. Formulated with select synthetic base oils and Royal Purple's proprietary Synerlec® additive technology, Max-Cycle® greatly reduces engine wear - including ring, cylinder and bearing wear. Max-Cycle® exceeds API / JASO new warranty requirements and is compatible with other mineral and synthetic motor oils. No flushing is necessary prior to use. Sold per quart in both 10W40 and 20W50 viscosities.

PURPLE ICE SUPER COOLANT

Purple Ice® is a high performance, synthetic radiator coolant additive for both gasoline and diesel engines. It is formulated to reduce surface tension of the coolant, improving heat transfer through the cooling system while providing additional protection against rust and corrosion. Purple Ice® reduces coolant temperatures better than comparable products. Purple Ice® is compatible with traditional ethylene glycol antifreeze (green) and GM Dex-Cool® antifreeze coolants. Sold in 16oz bottles.

ROYAL PURPLE 2 CYCLE TCWIII MOTOR OIL

Royal Purple® 2-Cycle TCW III is recommended for use in both pre-mixed and oil injected gasoline two-stroke engines in motorcycles, jet skis, etc. 2-Cycle TCW III's synthetic solvency keeps spark plugs and exhaust ports clean for maximum engine efficiency. This engine cleanliness combined with Royal Purple® 2-Cycle TCW III's low coefficient of friction promotes increased horsepower and engine speed. Sold per quart.

EXHAUST

Full Systems • Slip-ons • Vortex Baffles

Nasty Boy exhaust systems are the most highly sought after exhaust systems on the market today. They produce the deepest and richest sound for your cruiser. New for 2006, we've added several new styles, utilized latest-generation ceramic coatings where possible, improved our already great chrome finishes and released our patented Vortex Baffles for even greater performance gains and deeper rumble!

NASTY BOY ROAD STAR EXHAUST

FULL SYSTEMS - AWESOME SOUND

Nasty is what these bad boys are all about. Years of development have led to our release of the best exhaust system on the market. We have ceramic coated the inner-core tube to provide improved flow and cooling along with sound properties that set our Nasty Boy pipes apart from the crowd. Baron's specially-designed Vortex Generating Baffle System creates a stripping effect that pulls exhaust through your engine, creating flow characteristics unhampered by reversion that affects other exhaust systems. We finish off our ceramic-encased exhaust tubes with brilliantly chromed beauty shields. Great fit and amazing finish - Nasty Boy Pipes have no equal! Crowning your pipes with our Family Jewels custom tips allow you to customize the look of your Nasty Boys to suit your specific taste. Tips sold separately. Replacement baffles available.

\$649.95 per set

4-2-4 PIPES

Baron's newest Nasty Boy slip-ons are the best sounding, hottest looking pipes available for your RS Venture or Tour Deluxe. Four pipes straight out the back give your bike a look you will not find anywhere else. They produce a deep roar that announces your presence, while our special baffles can optionally be wrapped with fiberglass packing to alter the sound. Our 4-2-4's coolest feature is their ability to be accessorized through the addition of Baron Family Jewels. Our stylized exhaust tips come in several designs that can be mixed and matched and/or rotated for nearly limitless styling possibilities. You will knock people over with the look and sound of these slip-ons. Family Jewel tips sold separately.

BAG SLASH PIPES

Generation III of our very successful Bag Slash pipes has just been released. Vortex Generating internal tubes were added that accelerate exhaust flow, reduce reversion and directs spent gasses into our redesigned baffles. These changes, along with our use of thicker-walled external tubing, deepened the exhaust note and improved overall performance. As well, the mufflers now tuck in closer to the saddlebags and swingarm for improved cornering. Baffles can be easily removed if desired, and can be wrapped with fiberglass packing for those seeking to further adjust sound quality.

SLASHER PIPES

Nasty Boy Slashers cut to the heart, releasing all the sound and power from your V-Star 1100. They are designed to maximize performance, while their unique, scalloped slash cuts add style to your V-Star. Engineered using Baron's new Pro-Flow baffles that accelerate exhaust flow away from the engine, our Nasty Boy Slashers produce noticeably more power than any other pipes we've tested. Baffles are removable for those seeking to further adjust sound quality.

CUTAWAY VIEW

NASTY BOY VORTEX BAFFLES

Baron's Nasty Boy Vortex Baffles feature perforated tubes with a hydraulically-formed spiral that creates a whirling vortex, drawing exhaust gases toward the center of the pipe while accelerating exhaust gas speed. This strips exhaust from the engine more efficiently, adding additional power while producing better sound. Baffles measure 1-13/16" OD by 10-1/8" long for fitment to our Road Star Nasty Boy exhaust systems. Will fit other companies' exhaust pipes that have an ID of 1-13/16". Sold individually.

ENGINE GUARDS & HIGHWAY BARS

Rider Comfort • Motorcycle Protection • Highway Pegs

Baron Engine Guards and Highway Bars add both style and comfort to your motorcycle. They are built tough, using the strongest steel tubing, then chromed to a beautiful finish. They provide excellent mounting points for highway pegs and other comfort accessories. As well, our Engine Guard's open-hoop design gives your motorcycle excellent protection, saving expensive parts in the event of a tip-over. The products in this section are among our most popular accessories and should be the first you consider when outfitting your new ride.

WORLD'S STRONGEST ENGINE GUARDS

We have known it all along and now we can confidently say that Baron makes the World's Strongest Engine Guard, shown here supporting over 700 lbs !!

Check out the facts below:

- Our Engine Guards are the best you can buy.
- Constructed from .095 wall, 1^{1/4} diameter cold-rolled steel.
- Designed to transfer impact energy to the frame of your motorcycle.
- Open-hoop design gives excellent protection for your bike, saving expensive parts in the event of a tip over.
- Each Engine Guard is motorcycle specific - no clamps or U-bolts used.
- Works with most OEM windshields, lowers and floorboards.
- Provides a great location for accessories like Kuryakyn Highway Pegs and Lighting Products.
- All necessary hardware and instructions are provided for easy installation.

Dimensions:

- Diameter 1-1/4", Width 33-3/4", Height 15-1/2" on liquid-cooled models
- Diameter 1-1/4", Width 31-1/2", Height 14" on air-cooled models

HIGHWAY BARS

Baron's Highway Bar in chrome offers a great addition to any custom Road Star for riders who are as concerned with style as they are with comfort. You'll find these bars offer you a terrific platform for attaching optional foot pegs. Our special bends place the pegs in a location that provides extra comfort. Bolts directly to your frame. Constructed from .095" wall, 1-1/4" diameter cold-rolled steel for added strength and support. We also offer our Highway Bar with optional flame etching that provides a truly unique look.

Leading the Revolution

FOOTRESTS & CONTROLS

Rider & Passenger Floorboards • Footpegs • Forward Controls

Arrive in style while traveling in comfort! These fine products have been ride tested to provide improved ergonomics and comfort to the rider or passenger. Additional thought and consideration was put into their styling and quality before the final selection was made. All our products are beautifully crafted and finished.

RIDER LONGBOARDS

Our Longboards are more comfortable than stock while adding a terrific look to your bike. The unique Enferno or Tribal graphic details are machined into each board's surface, allowing for insertion of our specially cut, vibration-reducing rubber pads. Narrower than most stock boards by 3/4" and almost 2" longer, our boards provide increased comfort for the rider, while adding stylish flare. Our unique mounting system allows each board to be adjusted either forward or backward, as well as closer to, or further away from the side of your motorcycle. Installation is a snap. Please Note: All mounting brackets sold separately according to bike fitment.

HANDLEBARS

Mirrors • Control Covers • Levers

Handlebars provide more than just a look - they provide the control and comfort link between rider and motorcycle. Baron takes personal pride in all his handlebars and related products in this section, as they provide riders improved comfort, control, and the ever-important styling to their rides.

STARBAR

Our ergonomically designed Starbar improves your shoulder and back comfort by lowering and bringing your grip point closer to you. The bar angle re-aligns and widens your grip, providing increased control and improved rider position. It's like adding power steering to your bike! Installs on most motorcycles using stock controls. Does not fit '05 Royal Star.

Dimensions: Diameter: 1", Width: 36", Rise: 4", Pullback: 12-1/2"

MAKE - MODEL	YEAR	PART NO.	RETAIL

BIG JOHNSON STARBAR

A thicker, beefier version of our famous Starbar. Built from rigid 1-1/4" tubing that compliments the large front-ends of today's cruisers. Works with stock control lines on most motorcycles (Royal Star requires +2" cables). Fits motorcycles with riser spacing of 3-1/2" to 4". Fits most stock and aftermarket risers. Bored and dimpled to allow for internal wiring. Accepts all stock 1" controls.

Dimensions: Diameter: 1-1/4", Width: 38", Rise: 5", Pullback: 12-1/2"

UNIVERSAL			
For Most Makes and Models		BA-7300-02	\$149.95

KONG BAR

Classic ape hanger-style handlebar fabricated from fat, 1-1/4" tubing for a stronger, bolder "Old School" look. The larger diameter tubing gives this bar added rigidity that lessens the normal flex you get in a traditional 1" ape hanger. Our bar rise is 17", a height we figured as the best possible to suit most riders. Each handlebar is bored and dimpled to allow for internal wiring. Requires longer control cables, but accepts all stock 1" controls. Fits bikes with riser spacing of 3-1/2" to 4". Works with most stock and aftermarket risers. See our Cable Section for our special Kong Bar cables and brake lines.

Dimensions: Diameter: 1-1/4", Width: 37", Rise: 17", Pullback: 12"

XTREME BAR

This handlebar uses our Radius Bar bend while incorporating 1-1/2" diameter tubing to suit the massive size of both the VTX and M109. Ergonomically designed to offer the rider more leverage and widened to provide more control. Features radius bends in the risers to place the bar in a more comfortable position than conventional drag bars. Bolts directly to your upper triple tree and accepts all stock handlebar controls. For the VTX we designed a unique speedo mount that allows the stock speedometer to be attached to the risers and adjusted to different heights to suit the rider's preference. Optional VTX speedometer mount (BA-7367-00) available separately. Tachometer mount for the M109 stock tach unit available late Summer '06.

Dimensions: Diameter: 1-1/2", Width: 33", Rise: 7-1/2" Pullback: 7-1/2"

KURYAKYN ISO GRIPS

Combining great style and comfort, these grips provide a soft, non-slip surface that dampens operating vibration. Recessed area between the ISO-Pads permit air movement for added comfort in hot weather. Note: These grips are not compatible with bar-end weights found on many bikes. Usually, removing these weights is a simple affair and the vibration absorbing quality of the ISO-Grips more than compensates for the vibration damping lost by removal of bar-end weights. Please make sure removing bar-end weights or stock grips will not affect the installation of ISO-Grips.

DT RISERS

Awesome risers! These babies provide you a handlebar position that makes it easier to control your bike and much more comfortable to ride. Styled to accent the distinctive design of the Road Star and V-Star 1100, our DT Risers provide 2" of pullback without raising the height of the handlebar, vastly improving rider comfort and control. Hardware and instructions are included. Installs with stock control lines on Road Stars. V-Star 1100 models require slight re-routing of control lines.

KICKBACK RISERS

Terrific choice for riders seeking a way to move their handlebar into a more comfortable position. Our risers provide approximately 1-1/2" of pullback and 1-3/4" to the rise of stock handlebars. Each riser has its own stylish cap, providing a location between the risers for accessories like our Bullet Tachometer. Can be installed on most bikes and works with stock controls on most models. Some bikes may require minor drilling or re-routing of the stock cables and control lines.

KURYAKYN THROTTLE BOSS

Added to the popular Kuryakyn ISO-Grips, this little jewel can make all the difference in the world on a long ride. The Throttle Boss is a small adjustable paddle that is positioned under the palm of one's throttle hand, allowing the driver to slightly relax the grip and still maintain a constant speed. Muscle stiffness and fatigue are reduced during prolonged cruising. Note: Two-sided rubber pad permits use on both grips for a matched set.

RAKED TRIPLE TREE FOR YAMAHA CRUISERS

Customize your Road Star or Royal Star the way you've always wanted with Baron's new six-degree Raked Triple Tree! Machined from billet aluminum and chromed to show quality, our six-degree raked trees will give your Roadie or Royal that laid-out, extended-fork look you are seeking!

Baron Triple Trees are engineered and tested to provide the most benefits for your motorcycle, and are the **ONLY** ones on the market with the following features:

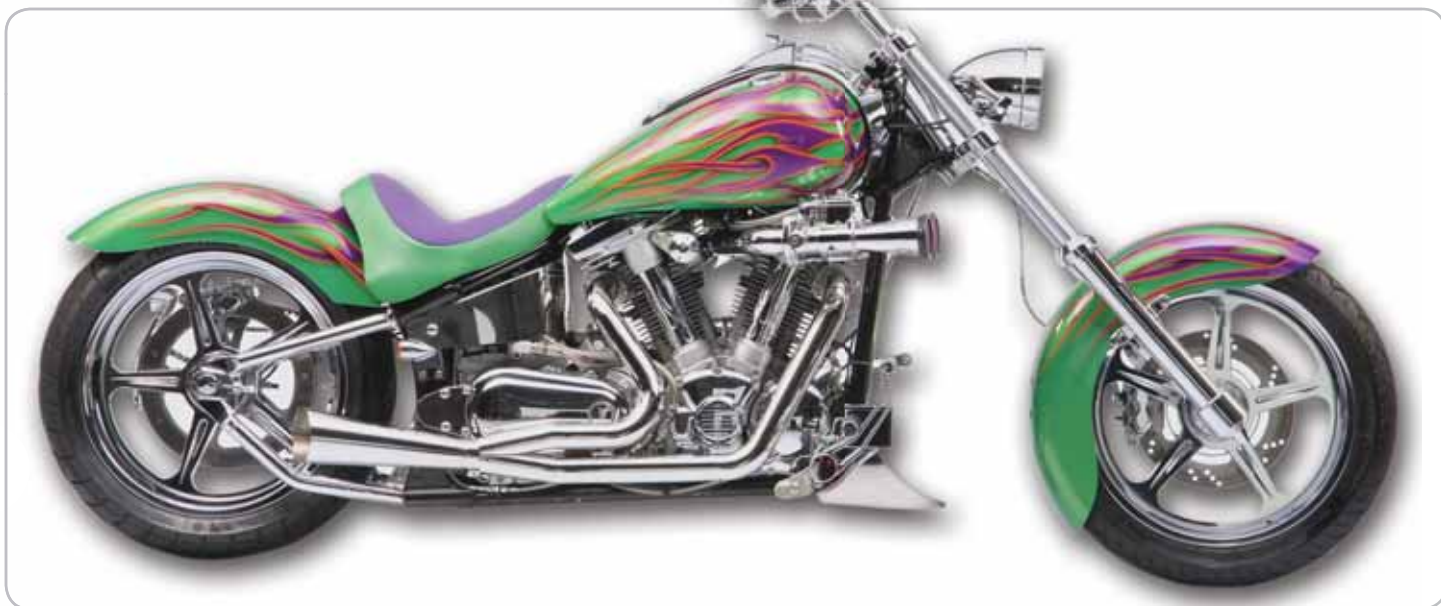

- Comes fully assembled and ready to install
- Includes new bearings and races
- Works with stock brake splitter
- Works with stock headlight* or aftermarket light, whichever suits your budget
- Features through hole in lower tree for front-upper brake line to pass through
- Includes all-chromed hardware
- Allows use of stock steering lock

Baron Raked Triple Trees offer stock riser spacing. They work with most stock components*, leaving you nothing extra to buy, yet they allow fitment of many aftermarket items you may have, or want to add down the road. No limitations to your current or future customizing! Comes with detailed installation instructions, including photos.

*Note: Cannot be used with stock fork tins, OEM windshield bracket, stock turn signal bar, or passing lamps. Royal Star fitment requires a custom, aftermarket headlight.

TACHOMETERS

Bullet Tachs • Sub-Sonic Tachs • Mini Tachs • Tach Adaptors

Baron manufactures the best tachometers in the industry, offering distinctive styling, accurate RPM information, beautiful finish and great pricing. New for 2006: We've added seven-color LED lighting and expanded our hardware kits!

BULLET TACHOMETERS

BULLET TACHOMETER

Our chromed, snub-nosed bullet design provides a sleek, yet compact housing for our 0 to 8,000 rpm electronic tachometer that delivers accurate engine data to the rider. Baron's unique, universal integrated clamp and rotating face allows for nearly limitless mounting positions on most handlebars, and works with most windshields. 2-7/8" diameter tachometer face is backlit for night riding. Comes fully assembled, and includes electrical connector hardware. Available in your choice of white or black dial face, and in clamp sizes to fit 1", 1-1/4" and 1-1/2" handlebars. Instructions included for easy installation. Single fire ignitions require an adapter (BA-7315-50, available separately).

BARNETT STAINLESS STEEL CABLES

Barnett's stainless-steel braided control cables have their exclusive extruded Teflon clear coat. This new coating will not scratch your paint or chrome. Available in standard and plus-sized lengths for various handlebar fitments, including lengths to fit our Kong Bar ape hanger-style handlebars.

Please double-check your fitment to ensure you are ordering the correct line set for your model. Feel free to call us with any questions on line fitment for a particular bike. We are adding new Kong Bar fitments all the time - call for availability.

KURYAKYN CHROME CLUTCH CABLE ADJUSTER COVER

Here is a classy cover to hide the crude, zinc plated cable adjuster. Its simple, two piece design encapsulates the threaded adjuster. It installs in moments with easy to handle spring clips and can be removed just as quickly should you need to adjust your cable. Works with stock cables and most steel braided cables .355 in. diameter or less.

GOODRIDGE STAINLESS STEEL BRAKE LINES

Goodridge stainless braided brake lines are the standard in professional motor-sports where the ultimate in braking is required. Goodridge "High-End" Metric Cruiser Brake Line Kits feature premium, clear-coated stainless-steel braided hose and chromed fittings. For models with dual front brake setups, all brake line kits come configured with Goodridge's "race-routed" dual lines that attach at the master cylinder with a double banjo bolt and route directly to each of the front calipers. All Goodridge brake lines pass a strict, 9-point Quality Assurance testing process prior to shipping, and are covered by Goodridge's exclusive "Guaranteed Forever" warranty. Get style and performance with Goodridge Metric Cruiser Brake Line Kits.

Please double-check your fitment to ensure you are ordering the correct line set for your model. Feel free to call us with any questions on line fitment for a particular bike.

FLEXI WIRE & HOSE COVER

This exciting product is something we're thrilled to be offering. Flexi Wire Hose Cover makes customizing a bike so much easier than before. You'll find this product on many of the custom bikes we've built over the last year and a half. Offered in a variety of colors, you can detail all your hoses and cables easily and affordably. Each kit includes different diameters of covering, so you can cover all the lines and cables on your bike with just one kit.

GOODRIDGE BRAKE PADS

Goodridge pads offer the ultimate braking experience. Goodridge ORGANIC pads use a high density organic ceramic compound, which provides superb all-round performance and life. Sold in sets for fitment to one caliper. If you have a front dual-disc application, order two sets. (NOTE: some front dual-disc applications take different left-right pads - see fitment chart).

REAR LOWERING KIT

Adjustable linkage allows you to set your ride height to any of three positions (stock, -1" or -2"). Set it wherever you want for the look you desire. Installs easily. Swing arm bottoming can occur at the -2" settings, so we recommend our Performance Shock Spring (BA-8543VS), which is great for lowered bikes or those carrying a passenger and/or heavy loads.

BOMBER 250 SWING ARM

This performance swingarm will accept up to an 18 x 8-1/2" wheel and 250-series tire for that phat-tire look, or use it with your stock wheel and tire. Utilizes OEM bearings and hardware. Works with stock Warrior brake, pulley and drive belt. Easy to install. Shipped in raw steel - finish work required. Simple welding necessary if using stock brake. Tires larger than 210 x 18 require fender modification or replacement. Custom fenders are available in our Body-Fender section.

SCISSOR LIFT

Our Scissor Lift raises a motorcycle high enough to allow you to do most any maintenance or cleaning you might want to do. Each technician in our shop has at least one of these unique scissor lifts. It slips under most bikes, allowing the frame to rest on its rails. Bikes that have engine parts that protrude below the lower frame tubes might require the placement of spacers to clear (spacers not included).

FENDER & BODY KITS

Custom Fenders • Side Covers • Tank Extensions • Custom Frames & Swing Arms

Create your own *award-winning* show stopper with Baron's stylish body pieces and custom chopper frames. We make it possible for you to build extreme custom motorcycles, without a machine shop or full-time fabricators. Everything you need to create a custom look that will bring home the "Best in Show" trophy is found in this section.

VINTAGE FENDERS

Vintage fenders are styled to complement the look of vintage automobiles. Their long, flowing shape and "V" detail bodylines create a nostalgic, classic motorcycle that people will drool over and beg the question, "What year was this made?" Vintage fenders are a direct replacement for stock. Hand-laid fiberglass construction makes for strong, durable fenders that don't need to be babied. Drilling for fitment, plus body work and paint required. Will support passengers up to 150 lbs.

GANGSTER FENDERS

Gangster fenders are our latest exercise in body styling. These fenders were inspired by '60s and '70s era muscle cars and truly fit the personality of your motorcycle. Curvature of the fender matches the profile of both wheel and tire. High quality, hand-laid fiberglass construction present you with a durable surface able to withstand the pounding beat of a V-twin engine. Drilling for fitment, plus body work and paint required. Will support passengers up to 150 lbs.

TANK EXTENSION

Baron created our tank extensions so owners could have an incredible custom bike. Designed to both stretch the tank and contour the rider's saddle, these tank extensions come ready to epoxy-bond, body, prime and paint. Give your bike that truly custom look! Available in a 2" stretch for Kawasaki Vulcans and Yamaha Royal Star and V-Star 1100, or in your choice of 2", 3" or 3-1/2" stretch for Yamaha Road Stars. Minor seat reshaping required with most seats. Yamaha Royal Star fitment requires a small amount of cutting to the extension for proper fit.

YAMAHA ROAD STAR CUSTOM FRAME KITS

by DON GRAY CUSTOMS

Don Gray's custom bolt-on frame for a stock Road Star means the engine and drive train will bolt right on without any rework, and accepts OEM shock and spring. The frames are offered in two styles: Pro-Street or Chopper, both in any rake, stretch and rise. Each style is available in single or double down tube, straight or curved, and with your choice of Conventional or Signature swingarm that will accept up to a 300mm wide drive. All custom frames will accept any American aftermarket component. All frames fabricated from the top materials in the industry and are TIG welded and assembled in custom jigs and fixtures. The conventional Chopper frame has 8" rise, 5" backbone stretch and a 40-degree rake, while the Pro-Street frame has 0" rise, 5" backbone stretch and 40-degree rake. Either frame may be customized to your own rake/stretch/rise dimensions for an extra \$250. **Call for details.**

REAR LICENSE MOUNT

Expose your rear wheel for that fat-tire look by replacing your plastic sub-fender/license and turn signal assembly with our rear license mount for the Yamaha V-Star 1100 and Warrior models. V-Star 1100 unit is finished in bright chrome, while the Warrior kit is finished in durable matte-black powder coat with chrome license frame. Reuses stock brake light. Turn signal flange mounts allow for the use of most aftermarket signal lights, such as our Bullet Marker Lights. Accepts 7" x 4" license plates.

HEADWINDS HALOGEN LAMP, FLAT LENS

Standard headlamps limit light output to a basic pattern that shifts only up or down based on your selection of high or low beam. With this trick high-candlepower quartz halogen headlight you get two distinct beam patterns. Low Beam: Wide, even blanket of light - illuminates both sides of road. Absolute cut-off at horizon provides excellent fog penetration. High Beam: Extra long range, concise center beam (available for 7" or 5-3/4" headlight housings).

KURYAKYN DRIVING LIGHT BAR WITH LED TURN SIGNALS

This is one of the more enlightening products you can add to your motorcycle. The bar is die-cast and chrome-plated for stunning good looks. Halogen Silver Bullets are mounted on top to function as driving lights. A band of high-intensity amber LEDs start in front and wrap around each end of the bar and function as both running lights and auxiliary turn signals. A variety of mounting brackets (sold separately) are available to fit most of today's popular cruisers. **Important Information:** To avoid overloading existing circuits, we recommend using Kuryakyn's wiring and relay kit, P/N 2328, when connecting the silver bullets. LED auxiliary turn signals are not D.O.T. approved and may require load equalizer, sold separately. This Light Bar is compatible with most windshields, but does not fit with Memphis Fats.

KURYAKYN DIODE KIT FOR METRIC CRUISERS

This kit is required when installing LED lights as turn signals on a motorcycle with a single turn signal indicator light. If this diode kit is not installed, power will back feed across the indicator light and all turn signals will flash at once.

MAKE - MODEL	YEAR	PART NO.	RETAIL
UNIVERSAL			
For All Makes and Models		4709	\$6.95

KURYAKYN HALOGEN SILVER BULLETS

Halogen Silver Bullets are assembled with high shock, heavy duty single filament quartz halogen bulbs. Kits for the rear include red and amber lenses. There is no need to use a Load Equalizer with these kits. Wiring exits the light through mounting bolt, and grounds through this mount. Do not wire Silver Bullets with red lenses to operate as running lights - excessive heat will result in cracked lenses. Small Silver Bullets measure 2-1/2" x 1-5/8" - Large Silver Bullets measure 3-1/4" x 2-5/16"

MAKE - MODEL	YEAR	PART NO.	RETAIL
UNIVERSAL			
Small Silver Bullets		2305	\$89.95
Large Silver Bullets		2320	\$89.95

KURYAKYN SMALL LED SILVER BULLETS

Universal LED Silver Bullets can be installed just about anywhere. They include minimal mounting hardware, but with a little ingenuity, they will fill the bill. The necessary Load Equalizer is included in each kit. Kuryakyn P-Clamps and new Fork Clamps work great to attach Silver Bullets to engine guards, frame tubes, or fork tubes. See our Kuryakyn section. Note: Red LED Silver Bullets have two wires, and are intended to be used only as turn signals. Amber LED Silver Bullets have three wires, so they can be wired to operate as running lights and turn signals. Small Silver Bullets measure 2-1/2" x 1-5/8"

KURYAKYN PRODUCTS

Performance & Chrome Accessories For Your Metric Cruiser

Kuryakyn products are innovative and stylish - they'll improve the appearance of your bike, enhance your comfort or control, are well-made and are beautifully finished. Great ideas and inspiration are waiting for you in this section.

KURYAKYN HYPERCHARGER KIT

Since their introduction in 1992, The Hypercharger™ has been widely recognized as one of the most cost effective performance modifications available. When the demand arose for adaptation to the Metric Cruisers we expected similar increases, but never expected to see the gain common on these engines. Aside from the desirable gains in performance, the Hypercharger is one of the most striking enhancements you can make to your bike. These kits contain an all chrome Hypercharger, mounting kit, and carburetor jetting necessary for a complete, sanitary installation. For optimum performance and drivability on Fuel Injected motorcycles, Kuryakyn strongly recommends the use of the Wild Things Fuel Injection Controller. Kuryakyn recommends that Hypercharger installation and jetting on the Yamaha V-Star 650 be performed by a Yamaha Dealer or other qualified technician.

UNIVERSAL			
Fits All Makes & Models		9310	\$129.95

KURYAKYN PRO SERIES HYPERCHARGER KIT

The Pro Series Hypercharger was designed for massive, air-hungry V-Twin mills that like lots of RPMs. If your motor needs air, here's the place to start. The inlet is cavernous. The filter area has been increased by a full 1/2" over the standard Hypercharger. Internal shapes have been tweaked to allow increased flow and velocity. The "Pro" has a look all its own. All edges are radiused for a more streamlined appearance, and a completely new cover with speed lines completes this picture of performance. These kits contain an all chrome Hypercharger, mounting kit, and carburetor jetting necessary for a complete, sanitary installation. For optimum performance and drivability on Fuel Injected motorcycles, Kuryakyn strongly recommends the use of the Wild Things Fuel Injection Controller.

KURYAKYN ISO GRIPS

Combining great style and comfort, these grips provide a soft, non-slip surface that dampens operating vibration. Recessed area between the ISO-Pads permit air movement for added comfort in hot weather. Note: These grips are not compatible with bar-end weights found on many bikes. Usually, removing these weights is a simple affair and the vibration absorbing quality of the ISO-Grips more than compensates for the vibration damping lost by removal of bar-end weights. Please make sure removing bar-end weights or stock grips will not affect the installation of ISO-Grips.

KURYAKYN THROTTLE BOSS

Added to the popular Kuryakyn ISO-Grips, this little jewel can make all the difference in the world on a long ride. The Throttle Boss is a small adjustable paddle that is positioned under the palm of one's throttle hand, allowing the driver to slightly relax the grip and still maintain a constant speed. Muscle stiffness and fatigue are reduced during prolonged cruising. Note: Two-sided rubber pad permits use on both grips for a matched set.

KURYAKYN DRIVING LIGHT BAR WITH LED TURN SIGNALS

This is one of the more enlightening products you can add to your motorcycle. The bar is die-cast and chrome-plated for stunning good looks. Halogen Silver Bullets are mounted on top to function as driving lights. A band of high-intensity amber LEDs start in front and wrap around each end of the bar and function as both running lights and auxiliary turn signals. A variety of mounting brackets (sold separately) are available to fit most of today's popular cruisers. **Important Information:** To avoid overloading existing circuits, we recommend using Kuryakyn's wiring and relay kit, P/N 2328, when connecting the silver bullets. LED auxiliary turn signals are not D.O.T. approved and may require load equalizer, sold separately. This Light Bar is compatible with most windshields, but does not fit with Memphis Fats.

KURYAKYN HALOGEN SILVER BULLETS

A Kuryakyn exclusive, Halogen Silver Bullets are assembled with high shock, heavy duty single filament quartz halogen bulbs. Halogen Silver Bullet kits for the rear of the bike include red and amber lenses. Note: There is no need to use a Load Equalizer with Halogen Silver Bullet kits. The wiring exits the light through the mounting bolt. Important info on Silver Bullets: Halogen Silver Bullets have a single power wire and ground through their mount. Do not wire Halogen Silver Bullets with red lenses to operate as running lights unless using Kuryakyn Run-Turn-Brake Controller, P/N 4859. Excessive heat will result in cracked lenses. Small Silver Bullets measure 2-1/2" x 1-5/8" - Large Silver Bullets measure 3-1/4" x 2-5/16".

KURYAKYN DIODE KIT FOR METRIC CRUISERS

This kit is required when installing L.E.D. lights as turn signals on a motorcycle with a single turn signal indicator light. If this diode kit is not installed, power will back feed across the indicator light and all turn signals will flash at once.

KURYAKYN UNIVERSAL WIRING & RELAY KIT

When using Halogen Silver Bullets as additional driving lights, we strongly recommend wiring them separately to avoid overloading the headlight circuit. Kuryakyn's kit provides you with a switch, relay, universal wiring harness and general instructions for installation. The kit is not intended for any particular application, but is easily adaptable to any motorcycle.

KURYAKYN FULL DRESSER BAG

The Full Dresser Bag from Kuryakyn is the most complete, versatile piece of motorcycle-specific luggage available. Loaded with features that make packing for a two-wheeled adventure more convenient and practical than ever before, this top quality, fully lined 1200 Denier construction bag provides unparalleled strength and protection from the elements. These outstanding features make this bag the hands-down choice for the serious motorcycle traveler.

- A unique wrap-around extra heavy-duty zipper allows access to items in the top or bottom of the bag with no unpacking! Each section opens independently.
 - Four zippered side compartments provide easily accessible storage for smaller items.
 - A variety of straps and a wide Velcro® belt allow quick and easy mounting to any backrest, luggage rack, or passenger seat.
 - Three spacious main storage compartments provide amazing capacity. The bottom two sections feature a rigid molded insert that provides added stability to keep clothes wrinkle free. The collapsible top section has enough room for two leather jackets or a full-face helmet, and folds neatly away when not needed.
 - Sturdy wheels provide quick and easy mobility.
 - Two over-the-top adjustable straps let you tie bedrolls, tents or jackets above the top compartment.
 - Multiple D-rings on sides of bag provide additional anchor points.
- Dimensions: 11" wide, 10" deep, 18" tall with top compressed, 25" tall with top expanded.

KURYAKYN TOMBSTONE BAG

Here's a bag that does double duty. Designed from the start to serve as both a rigid frame backrest and a bag, the Tombstone Bag provides solid lumbar support and a handy place to store essentials. Zippered pockets, clips and pouches inside the bag keep everything organized and easy to find. The Tombstone Bag is designed to fit on all motorcycles with a passenger backrest. Dimensions: 12" L x 12" H x 9" W. Includes three pads, 1/2", 2", and 3" so you can tailor the bag for ultimate comfort.

KURYAKYN GRANTOUR BAG

With multiple mounting options – sissy bar, luggage rack, or passenger seat this versatile bag is the ultimate companion for overnight trips or short tours. A semi-rigid internal framework serves two purposes. It helps the main compartment hold its shape and it provides adjustable lumbar support for the rider's back. Large zipper pulls are glove-friendly. Retractable locking device keeps bag right where you want it. Made of Cordura and leather, the weather-resistant Grantour Bag comes with a rain cover for added protection. Dimensions: 18" tall x 14" deep x 20" wide.

KURYAKYN ULTRA TOUR BAG

Need major storage? Here is the answer. With its large center compartment and 2 large end compartments per side, pack away! Each end compartment expands 2" for extra room. With its semi-rigid construction this bag holds its shape no matter what. Perfectly sized to provide back support for rider when mounted on passenger seat. Use the convenient shoulder strap for carrying the bag after a day of riding. Included items: Bag, shoulder strap, 2 adjustable universal straps, rain cover.

- Features:
- Zippered ends and large hatch allow access to main compartment from almost all sides.
 - Expandable side compartments provide extra room when you need it.
 - New WATERPROOF zippers have large, glove friendly pulls.
 - Rain cover included for added protection.
 - 1200 denier construction for durability.
 - Wide hook-&-loop belt securely attaches bag to any backrest.
- Dimensions: 16-1/2" high, 16" wide, 15" deep, expands to 20" wide.

KURYAKYN CLASSIC TOUR BAG

This is not your traditional roll bag. The new Classic Tour bag is perfectly sized for overnight or day trips.

- Zippered ends and large hatch allow access to main compartment from almost all sides.
- Expandable side compartments provide extra room when you need it and keep the bag narrow when you don't.
- New WATERPROOF zippers have large, glove friendly pulls. Also includes a rain cover for added protection.
- 1200 denier construction for durability.
- Wide hook-&-loop belt securely attaches bag to any backrest.
- Semi-rigid construction provides support so the bag retains its shape – even when empty. Perfectly sized to provide lumbar support for rider when mounted on passenger seat. Lean back and enjoy!
- Plenty of sturdy D-Rings allow you to bungee additional items to the bag or lock the side pocket zippers if needed (small padlock not included).
- Convenient shoulder strap makes it easy to carry into the hotel after a long ride.

KURYAKYN CUSTOM ROLL BAG

Add the convenience of a universal mount roll bag with expandable end compartments for when you need that extra storage room on the road. With three separate compartments and a storage area of 8" diameter by 19" long expanding up to a 23" length, pack all the items you need. With its semi-rigid construction, it holds shape either empty or packed full. The weather is little threat with traditional Kuryakyn weather resistant construction, and new self-sealing zippers provide ample protection. For those severe storms, simply throw on the included fully protective rain cover and let Mother Nature bring it on.

Features:

- Zippered ends and large hatch allow access to main compartment from almost all sides.
 - Expandable side compartments provide extra room when you need it and keeps the bag narrow when you don't.
 - New WATERPROOF zippers and rain cover included
 - 1200 denier construction for durability
 - Fully universal mounting straps provide endless mounting options
- Dimensions: 8" diameter by 19" length, expands to 23"

KURYAKYN MINI GRANTOUR BAG

The convenience of a stylish motorcycle bag and backpack in one. Simply unzip the Mini Grantour Bag from its mounting pad and take this standard size backpack with you, or throw it over your shoulder with its shoulder strap. These added straps allow you to comfortably take your bag with you. When you need additional space, simply expand the main compartment to 1-1/2 times its height, pop up the internal supports, and keep on packing. External dimensions 14" long, 14" wide by 8" deep, expands to 12" deep. This weather resistant bag includes a fully protective rain cover for added protection in severe weather.

Features:

- The center compartment expands to 1-1/2 times original size with pop up semi rigid support to hold its shape.
 - Large enough to hold most helmets
 - Padded back pack straps with waist strap for comfortable use
 - Premium padded shoulder strap for additional carrying options
 - 1200 denier construction for durability with leather accents for style
- Included Items: Back pack bag with motorcycle mounting pad, padded shoulder strap, rain cover and 2 adjustable universal straps.

Dimensions: 14" long by 14" wide by 8" deep, expanding to 12" deep.

KURYAKYN GRAND ROLL BAG

No need to awkwardly bungee items on the front of your bike - conveniently add storage space with the stylish Grand Roll Bag. Designed with universal mounting straps, this bag straps conveniently to your handle bars or any other place you want to strap it on. This 8" diameter by 16" long bag gives you space to carry those additional items you need without a luggage rack or sissy bar. Its semi-rigid construction maintains its shape while securely fastened to your motorcycle whether it's stuffed full or empty. The mesh end compartments give you a place to stuff those items you need to get at quick. In traditional Kuryakyn design, weather is no match for this roll bag. Fully weatherproof; it contains an internal nylon shell and full rain cover for even more protection from severe weather.

Features:

- Additional storage space for the front of your bike.
- Easy mounting with no need for sissy bar or luggage rack.
- 1200 denier construction with leather accents.

Included Items: Bag, rain cover

Dimensions: 8" diameter by 16" length

K & N PRODUCTS

Oil Filters • Air Filters • Vent Filters • Filter Cleaning Products

For over 35 years K&N has manufactured serious air filters completely unlike traditional disposable filters. K&N air filters are designed to achieve high, virtually unrestricted air flow while maintaining filtration levels critical to ensure long engine life. A K&N air filter will be the last filter your engine will ever need! And now K&N offers their Performance Gold O.E. Replacement Oil Filters for fitment to many motorcycles. Baron is a factory-authorized, full-line K&N dealer, so make us your one-stop shop for all your K&N filter needs.

K&N FILTER CHARGERS

K&N Replacement Air Filters are designed to fit right into the standard OEM motorcycle airbox. No modifications are required by the owner, and no jet changes or adjustment of the carburetors is anticipated or suggested. K&N's high flow cotton gauze air filter is washable, reusable and built to last for the life of your engine. All filters consist of four to six sheets of cotton gauze layered between two sheets of aluminum wire mesh. This media is then pleated and oiled to enhance its filtering capabilities and overall performance. The result is an air filter that allows dramatically more air into an engine for increased horsepower and acceleration. K&N warrants any replacement filter for 1 million miles. Choose your make and model from our fitment charts below.

K&N PERFORMANCE GOLD OIL FILTERS

K&N Performance Gold Oil Filters were originally developed for demanding race applications, and now these premium oil filters are rapidly becoming a favorite among motorcyclists for their durability and easy removal. K&N oil filters use resin impregnated cellulose filter media. This allows for higher flow rates while providing outstanding filtration. Ideal for use with high-end synthetic motor oils. Specific filters include an anti-drainback valve, when applicable, that prevents oil from draining back into the crankcase during engine shutdown. Available in both spin-on and cartridge-type applications. All spin-on filters are offered in your choice of black or chrome finish and come with a 17 mm nut welded to the top so they can be easily wrenched-off with a standard tool. Choose your make and model from our fitment charts below.

REPLACEMENT BAK FILTER

Replacement K&N filter element for any Baron teardrop-shaped Big Air Kit filter assembly.

MAKE - MODEL	YEAR	PART NO.	RETAIL
UNIVERSAL			
Fits All Makes & Models		E-3333	\$52.95

K&N RAINCOAT

Use this raincoat to protect your BAK filter from moisture and dust. Our BAK filters are water resistant, but extended riding in rain is not recommended. Will also work on any filter kit that uses a K&N E-3333 filter. (Does NOT fit K&N Billet Filter Kits)

MAKE - MODEL	YEAR	PART NO.	RETAIL
UNIVERSAL			
Fits All Makes & Models		20-2083-01	\$19.95

K&N FILTER SERVICE KIT

A simple 6-step filter cleaning system that restores your K&N filters to "like new" condition.

A great accessory for any BAK purchase!

MAKE - MODEL	YEAR	PART NO.	RETAIL
UNIVERSAL			
Fits All Makes & Models		99-5000	\$12.50

CUSTOM WHEELS

Wheels • Rotors • Pulleys • Calipers

Put the beauty on the pavement with these stylish wheels, rotors, pulleys and other wheel-related products from industry leaders RC Components and Pro-One. These products provide high style and crowd pleasing looks that will catapult your motorcycle into a class by itself.

**SINISTER
WHEELS**
FOR YAMAHA ROAD STAR

Pro-One wheels feature a unique, 100% forged billet aluminum, one-piece rim. Each rim is CNC machined and is available either show chrome plated, polished or black anodized with machined edges.

CALL FOR DETAILS ON AVAILABILITY, FITMENT, AND PRICING!

INTERCHANGEABLE BLADES!

Need a fresh new look every now and then? All Sinister (Series I) wheels can be accented with any (Series I) blade style of your choice. Blades are available in chrome, polished or black anodized, and are secured to the wheel using aircraft quality hardware.

F: Women's Baseball, L-XL: \$15.95

Terms

All orders are shipped pre-paid by credit card, PayPal (internet orders only), or approved COD Company Check. COD orders will be assessed a fee of \$7.50 in addition to shipping and handling. International orders must be pre-paid by credit card or wire transfer. We accept Visa, MasterCard, American Express and Discover. BARON reserves the right to revise all payment terms without notice.

Credit Card Security Information

Due to increasing credit card fraud, a Sales Associate will ask you to provide the 3-digit CVC code found on the back of your credit card. This is strictly for verification purposes and will be kept confidential. A fee of \$1.50 will be charged if the CVC code is not provided.

Prices

Prices are subject to change without notice. All prices are F.O.B. Fallbrook, CA. In the event a mistake is made in our price list or catalog, we reserve the right to advise customer at time of sale of correct price before shipment.

Order Placement

Business hours are 8:30 AM to 5:00 PM (Pacific Standard Time), Monday through Friday, except for most national holidays. Orders may be placed by phone (760-731-1200), Fax (760-731-1284), E-mail (sales@baronscustom.com), or online via our website (www.baronscustom.com). Orders may be placed 24 hours a day, 7 days a week. Items temporarily out of stock will be shipped automatically when available without further notification to customer; customer is responsible to advise BARON of any decision to cancel the order.

Special Orders

Special orders are NOT returnable unless the product is defective. Special orders such as custom wheels, rotors, pulleys, custom paint, head packages, etc., must be pre-paid at time of order. Please call for details.

Delivery Time

BARON can only estimate lead-time for delivery; however, we cannot guarantee exact delivery date for any product. Items temporarily out of stock will be shipped automatically unless you request no backorders or cancel the order before it is shipped. The customer is responsible for canceling back orders and must obtain a COC number (see Order Cancellations below).

Order Cancellations

Cancellations of orders must be received prior to shipment. A Cancelled Order Confirmation number ("COC") must be obtained at the time of cancellation and retained by the customer for their records, and no cancellation is effective unless a COC is issued. If BARON accepts a return for cancellation without a COC, the customer is responsible for any shipping costs incurred and a 20% re-stocking fee on any item returned.

Shipping and Handling

All orders are shipped F.O.B. Fallbrook, CA at customer's expense. Insurance for items in excess of \$100 are insured at customer's expense. There is a handling fee of \$4.20 per package. Orders shipped within the continental United States will be shipped ground. Expedited shipping is available upon request at additional expense. The minimum shipping fee is \$10.50 per order. Choice of carrier is the sole discretion of BARON. BARON is not responsible for orders not received in the specified delivery time.

Damaged Shipments

BARON is not responsible or liable for credit or account adjustment for product damaged in freight. Should customer receive product that was damaged in transit, the following procedures must be followed:

- A. Keep all cartons, packaging and damaged product.
- B. Make a notation on the delivery receipt before the delivering carrier leaves the premises and retain a copy thereof.
- C. Notify BARON Sales Department immediately.
- D. Notify delivering carrier's claims department immediately in settling the claim. BARON will assist in providing any documentation required to settle the claim.
- E. If there is concealed damage, the delivering carrier must be notified within 24 hours. Ownership of the product transfers to customer at the F.O.B. shipping point (Fallbrook, CA). Therefore, claims for lost or damaged merchandise must be originated by customer and are required to be made to the delivering carrier, not BARON.

Refused Shipments

If customer refuses receipt of an order without properly canceling and receiving a COC, and the order is returned to BARON by the carrier, if BARON accepts the returned product it will be put back in stock and a 20% re-stocking charge will be added to customer's account. Customer is additionally responsible for all shipping and handling costs incurred. BARON reserves the right to terminate an account or place an account on pre-pay status if product is refused or returned without proper cancellation and receipt of a COC.

Returned Checks

Returned checks automatically convert the account to certified check or money order terms on all future purchases. There will be a \$25.00 charge for all returned checks. BARON retains the discretion to change the method of payment required at any time.

Defective Product & Shortages/Overages

All BARON products are closely inspected before packaging and shipping. BARON must be notified WITHIN 72 HOURS OF RECEIPT OF SHIPMENT AND PRIOR TO INSTALLATION of any and all damage or discrepancies to customer's shipment. Inspect each part thoroughly for dents, chips, scratches, gouges, flaws, etc., and report any such damage. Claims for damages are NOT valid once a part has been installed.

Return Merchandise Authorization (RMA)

All returns must have a Returned Merchandise Authorization ("RMA") number. Should customer have product to return the following procedures must be followed:

- A. Contact BARONS Customer Service to obtain an RMA number.
- B. Carefully pack items to prevent damage. Include the RMA number on the outside of the package. Any return item damaged during return shipping will not be warranted or considered for credit/refund.
- C. Include the original invoice along with a letter describing the complaint (or RMA form included in the package or found online) and including the RMA number. This must accompany all returns and must include the name, address, and contact phone numbers as well as an e-mail address, if available.
- D. Clearly mark the outside of the box with the RMA number and the word RETURN.

Returns must be received within 45 days of the date the RMA number is issued. Any package shipped without an RMA number or received after the 45 day time frame will be refused. All freight charges are the responsibility of the customer and will not be reimbursed in the event of a warranty claim.

Limited Warranty

BARON offers a Limited Warranty on its products for a period of one year from the date of invoice. Limited Warranty is for defects in workmanship and materials only. Parts must be returned to BARON for inspection for determination of repair, replacement or credit. Misuse, improper installation, and/or modification of our product will void all warranties. No replacement will be shipped prior to receipt of the return for inspection and determination of qualification for warranty claim. We will make every effort to ship replacement parts in a timely fashion; however, please be aware that delays may sometimes occur due to manufacturing schedules. Credits or refunds will be issued only for the value of the item and only if part was purchased directly from BARON. No credit will be issued for labor or any other cost incurred beyond the original cost of the part. BARON is not responsible for failure of any product that results from normal wear and tear, misuse, modification or improper installation. Exhaust sound, tone and pitch vary from one system and motorcycle to the next and are not covered by warranty. Returns must have an RMA number clearly marked on the outside of the package. See RMA section of these policies for more information.

Performance Product Warranties and Returns (i.e., internal engine parts)

No warranties on internal engine performance products for any reason. No returns, exchanges or refunds for any internal engine performance products. No credit will be issued for labor or any other cost incurred in the installation of these products.

Limited Chrome Warranty

As hard as we try, our chrome is not always perfect. Small flaws and/or marks in the chrome do not constitute a flawed product. If, upon inspection, you do not agree, or if the chrome is very obviously flawed, then please give us a call. Our standard chrome warranty is for a period of 90 days from date of invoice for workmanship or defects. Corrosion defects due to salt spray in beach or snow areas, corrosive chemicals, improper care or cleaning are NOT COVERED by warranty. Parts must be returned to BARON for inspection for determination of repair, replacement or credit. Misuse, improper installation, and/or modification of our product will void all warranties. No replacement will be shipped prior to receipt of the return for inspection and determination of qualification of warranty. We will make every effort to ship replacement parts in a timely fashion, however, please be aware that delays may sometimes occur due to manufacturing schedules. Credits or refunds will be issued only for the value of the item and only if part was purchased directly from BARON. No credit will be issued for labor or any other cost incurred beyond the original cost of the part. BARON is not responsible for failure of any product that results from normal wear and tear, misuse, modification or improper installation. Bluing/yellowing or discoloration of exhaust products is NOT COVERED for warranty. Returns must have an RMA number clearly marked on the outside of the package. See RMA section of these policies for more information.

Note

Some products or services may not be legal for highway use in your area. Please check local laws before installing parts. Motorcycles can be dangerous if not ridden safely and properly maintained. BARON has no control over the usage of any of its parts. Customers must exercise good judgment as to the proper selection, installation, use and maintenance of any parts.

Inspection

All items returned for warranty consideration are subject to inspection. BARON reserves the right to inspect all parts related to a warranty claim and to refuse any warranty claim upon inspection of said parts. No replacement products will be shipped prior to receipt and inspection of any product for warranty request.

Advertising

All photos contained in BARON catalogs, flyers, brochures or website remain the property of BARON and may NOT be reprinted or copied without the express written permission of BARON. BARON reserves the right to terminate any Dealer who advertises BARON products for sale at any price less than BARON Suggested Retail Price.

Technical Support

Technical support is available during regular business hours by e-mailing tech@baronscustom.com, or calling 760-731-6771.

Acceptance, Choice of Law, Venue and Attorneys Fees

Placing orders with BARON CUSTOM ACCESSORIES constitutes acceptance of all the terms and conditions as stated above and that all matters regarding disputes will be subject to California law.

Note

All items sold by BARON are intended for closed course racing and show purposes and may not be street legal, DOT approved or EPA approved. Certain products can affect or void your manufacturer's warranty.
